- Attentative to UI/UX details and high code quality
- Passionate about web accessibility (conforming to WCAG)
- Good mentor and a team lead
- Open to evolving in: React, ASP.NET and many others

WORK EXPERIENCE

04/2020 –   **Scrum Master and Full-stack Developer · CGI Finland Oy**

I work 50/50 as a full-stack developer and as a scrum master for an international team. In the project we use Angular 8 in the frontend and in the backend a Java REST API with Hibernate and a DB2 database. Recently we also added e2e tests with Protractor into our development workflow.

02/2020 – 04/2020   **Consultant · CGI Portugal**

I transferred to Lisbon, Portugal to mentor our Portuguese colleagues and to act as a vital link between our offices in Finland and Portugal. I was supposed to in Lisbon for at least six months to manage the near-shore team but it got cut short because of the pandemic.

07/2019 – 02/2020   **Full-stack Developer · CGI Finland Oy**

After my exchange studies in Belgium I returned to the same project at CGI and I was given more responsibilities. I acquired a SAFe 4 certificate and became the Scrum Master of our international development team.

08/2018 – 01/2019   **Junior Developer · CGI Finland Oy**

Full-stack developer in another large national project that was being "modernized" from a desktop application to a web application. The new web application was built with Angular 8 and a Java REST API and it handles the data of roughly 10% of Finns every year.

04/2018 – 08/2018   **Trainee · CGI Finland Oy**

Developed a brand-new web application from scratch in a small team. Main responsibilities included web design, frontend development with Angular and WCAG AA-level accessibility compliance.

EDUCATION

01/2019 – 07/2019   **Exchange Student · Howest University of Applied Sciences, Belgium**

Applied Computer Sciences

01/2016 – 12/2019   **Bachelor of Engineering · Metropolia University of Applied Sciences**

Information and Communication Technology – Software Development
